

CONE GENIE®

SPECIFICATION SHEET

HIGHEST QUALITY MATERIALS

The Cone Genie is made of high quality Aluminum & Stainless Steel Components.
The rail system is aluminum with a Ceramic coating and rubber trimmed edges.

ADVANCED PHOTO-EYE SYSTEM

Our advanced Photo Eye system provides several functions—including:
Hand Sensing; Motor Activation; Timer Operation with variable adjustment
Between 1-14 Seconds; Operational Light Controls; Sensing Range Adjustment.

SHAPING SYSTEM

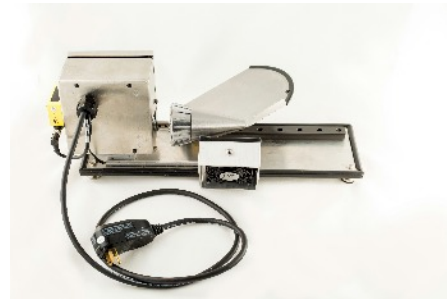

We provide a firm aluminum & stainless steel shaping platform that includes air cooling to aid in the rapid forming process.

UL APPROVED COMPONENTS

We use only UL (Underwriters Laboratory) approved electrical components. We also provide a GFCI Safety Plug to insure all steps are taken to provide a safe operation for you.

CONE GENIE™

SPECIFICATIONS:

Dimensions: Approximately 21"W x 6" D x 9" H

Weight: Approximately 16 pounds

Materials: Aluminum & Stainless Main Components

Voltage/Amps: 115 VAC / >2.0 Amps

LIST PRICE: \$1795.00
